Built in 2008, this gorgeous 2 bedroom 2 bath, Craftsman style home, was built with incredible attention to detail. The lavish use of wood and stone, high ceilings and oversized doors and windows create a light and open feeling. There is a large patio, with ocean views, off the front of the house that you can access from the living room and the fantastic kitchen. The upstairs master bedroom also has a balcony that you can enjoy the ocean views from. If you are looking for more privacy, the 2nd master has access to a wonderful and private back yard. There is a one gar garage and an elevator that can take you to all levels of the house. This is one, not to miss.

Square footage, acreage, and other information herein may have been received from a variety of sources and has not been verified. If important to buyers, buyers should conduct their own investigation.
